RESPONSE TO NOTIFICATION OF MISSING REQUIREMENTS

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The undersigned is in receipt of a Notification of Missing Requirements, a copy of which is enclosed, which Notification was mailed in the subject U.S. patent application on April 17, 2006.

A Second Preliminary Amendment was filed in the subject application on February 14, 2006. That Second Preliminary Amendment included a verified translation of the German language text, including the claims, of WO 2005/007410 A2. That Second Preliminary Amendment also included a Substitute Specification and a marked-up copy of the verified translation, to show the changes made thereto, to arrive at the Substitute Specification. The published PCT application WO 2005/007410 A2 included 24 claims. The verified translation, filed with the Second Preliminary Amendment, included 24 claims. A copy of the date-stamped receipt card, as evidence of the filing of the Second Preliminary Amendment on February 24, 2006, is enclosed. It is to be noted that a Submission of Materials was concurrently filed. It included translations of those materials recited in the Notification of Missing Requirements, as having been received.

The undersigned received a Notice Under 37 CFR 1.251, mailed April 10, 2006, that the Second Preliminary Amendment of February 24, 2006, could not be located. In response, a re-submission of all of the materials filed on February 24, 2006, was made on April 14, 2006. A copy of that date-stamped receipt card is enclosed.

The filing fee paid when the application was originally filed on January 10, 2006, included the processing fee of \$130.00 for the submission of the English translation after the 30-month time period. It is believed that no additional fee is required in connection with this response. The deposit account No. 10-1213 of the undersigned was previously authorized to be used to pay any additional fees.

The issuance of a Notification of Acceptance and a filing receipt is respectfully requested.

Respectfully submitted,

Jochen SIEBLER et al.
